

Test Log: Component Testing of Support Module

Date: March 30, 2024

Test Case: Rendering of Support Component

Test Description: This test verifies that the Support page renders all the key components.

Testing Methodology:

- Check if the translation keys "SupportPage" and "SupportPageDescription" are rendered.
- Verify the AdminUserSupport, ASLUserSupport, and ASLTranslationOptions components are there

Results:

The Support component renders all sections correctly.

Test Pass/Fail: Pass

Conclusion:

The Support component renders as expected, indicating that the component is functioning correctly.
