

QUALITY ASSURANCE		
Project Name	VisuSpeak	
Description	Low-fidelity prototypes for the front-end design of the application	
Prepared By	Jasmeet Singh	
Test Cases		
Deliverable	Description of Test Cases	Performed by
Low-fidelity Prototypes	Went through the list of required pages and the design for each page. Prototypes looks good to be developed into high fidelity designs.	Archisha Bhattacharya
Low-fidelity Prototypes	Walked through the proposed designs, and considered the features and functionality each page should have. Had a good group discussion, clarified some aspects and the designs have been approved for hi-fidelity prototyping.	Brooklyn Coulson
