

Test Log: Component Testing of Resources Module

Date: March 25, 2024

Test Case: Rendering of Resources Component

Test Description: This test verifies that the Resources component renders all expected sections and buttons correctly.

Testing Methodology:

- Verify the presence of the ASLDictionary section, including its description and "ViewDictionary" button.
- Verify the presence of the LearnASLProfessionally section, including its description.
- Check if the NationalDeafNews section is rendered, including its description.

Results:

The Resources component renders all sections and buttons correctly.

Test Pass/Fail: Pass

Conclusion:

The Resources component renders as expected, indicating that the component is functioning correctly.
